BOWDEN ALTA.

Board of Trade for Bowden

As scheduled the adjourned meeting for the organization of a local Board of Trade, was held in the Oddfellow's hall on Friday evening last, at which there was an exceedingly good representation of our townspeople. As chairman of the meeting Mr. F. Hunter called the assembly to order. He then read extracts from the Provincial ordinance in regard to the organization of such bodies, to act as a guide in the formation of a local board, and called for the election of a president, secretary and other executive officers. The names of Mr. Hunter and Mr. A. McLean were moved as presidents, but as Mr. McLean declined the nomination Mr. Hunter received the appointment by acclamation his nominator and seconder being Mr. Richardson and Teeling.

For the appointment of Vice President Mr. Teeling named Mr. Richardson and his motion was seconded by E. Morfitt. Mr. Richardson stated that he did not expect to be in Bowden very long and asked that another person be put in that office. Accordingly Mr. E. Morfitt was nominated on motion by Richardson and Buchanan. A vote was taken and Mr. Morfitt was declared elected.

The chairman then called for the appointment of a sec-treasurer upon which Messrs Morfitt and Teeling nominated Mr. T. J. Ryley upon no further nominations Mr. Ryley was declared elected. A finance committee composed of the following gentlemen; Messrs Chamberlain, Richardson and J. Bernard was then elected on a motion of Buchanan and McLean. As an amendment to this motion Messrs Chamberlain and Teeling added the name of Mr. E. J. Buchanan.

The amended motion was passed by the meeting.

On a motion by Messrs Richardson and Morfitt the meeting decided that a committee be formed to be known as "Roads, Bridges and New Industries and to office on this committee was appointed on motion by McKim and Howard. Messrs Teeling, McLean and G. F. Mitchell.

On the advertising and emigration committee were appointed Messrs Errin, Richardson, L. Bernard and O. W. Chamberlain by a motion of Teeling and Morfitt.

The next order of business was the appointment of a committee to draft up the by-laws and regulations suitable for the operation of a local Board of Trade; the meeting decided that this committee should submit their work for approval to a general meeting of the members to be held on April 26. On this committee was appointed Messrs Hunter, Morfitt, Ryley, Buchanan and Chamberlain. The meeting then adjourned.

A meeting of the committee appointed to draft off rules and regulations at the organization of a Board of Trade meeting last Friday night, was held in the office of Howard and Morfitt on Monday evening last.

The committee got down to business and have copied quite a voluminous report which they will submit for approval and amendments at the scheduled general meeting of the Board next Friday evening. This is one of the most important meetings which the Board of Trade will hold this year and a full attendance is desired.

Dairymen's Meeting

SMALL CROWD IN ATTENDANCE
OWING TO A STORM WHICH
AROSE EARLY IN THE EVENING.

A very small crowd was in attendance at the Dairymen's meeting held in McCues hall on the night of the 24th owing to a heavy rainfall which came up about 7 o'clock. However the gentlemen appointed to speak for the evening were in attendance.

Following is the list of speakers during the evening.

Mr. F. H. Hunter, manager of the local creamery; Mr. Geo. Harcourt, Deputy Minister of Agriculture and he is also one of the Directors of the Laurentia Milk Co. of Alberta Ltd. to which the local creamery now belongs; Mr. T. B. Millar, managing director of the company, and chairman for the evening Mr. Wm. Hiltz.

Mr. Hunter, first to speak, delivered a very sensational address on the care of milk and cream, bringing out several points on the care of same, which some of course may have already known, yet there were many instances in which some good advice could be taken. He also brought forward advice to many farmers on the cleaning of their separators and cans; ways in which to cover the latter in its being brought to the creamery or elsewhere. A number of figures were put on the board showing how the creameries arrive at a statement as to how the farmer receives so much for his butter fat.

Mr. Harcourt, Deputy Minister of Agriculture, second to take the platform, rendered news of various kinds.

Firstly the making of a small refrigerator which could be put to several uses.

Secondly the building up of a dairy herd, pointing out that in order to raise a herd of good cattle it requires lots of feeding on the part of the farmer, and that must be good. For instance he stated that alfalfa was one of the best of grasses grown with which to feed cattle in fact, good for all classes of animals, several farmers he said had or were accustomed to nothing else, but grain growing, but the time was not far when they would see their great loss. In order to make good money out of farming, you must get down to practical mixed farming, this he stated was a far better condition than most of the farmers had or have been doing. Several farmers of the province have an idea that in order to obtain a good herd of cattle one must first go into the buying of good purebred animals, this is not the case, start with what you have, if possible obtain a good sire for the head of your herd, then feed in liberal quantities, in fact too much feed cannot be given, then you will notice within a short allowance of time what a change to the upbuilding of your herd will amount to. This is practically the way in which purebred animals are reared. Liberal feeding is half of the breed. The sooner the farmer commences to realize this the better off he will become.

Next watch closely and weed out your herd, this can be done by weighing your milk from each cow, if the animal does not give over

Raven, Didsbury, Three Hills, Gra-
hams, Mayton and Trochu.

**First Impressions
of Bowden**

(By the Editor)

Was everything quiet? Not so.
In fact everything was the very re-
verse from quiet. All was hurry
bustle. Guests at the hotel were
coming and going. Teamsters
from everywhere, some loading
lumber; many unloading lumber,
lumber for the farms, for the rail-
roads, for the culverts, for the build-
ings, for the fences; lumber galore.
I found everybody busy.

Freight and neighbors goods,
goods for the merchant, goods for
the farmers, goods from the East,
goods from the West, from the
North and South. Goods from
everywhere. Goods of all descrip-
tions. Household, stoves, engines,
poultry, carts of grain, especially
oats. Trunks galore, legions of
them. Many going but more com-
ing.

Next go with me to the stock
yards and see the cowboys bring-
ing the cattle from the many hills,
I correct this, from the many plains
and grassy prairies. Cattle from
the west, cattle from the east, cattle
for everywhere. Also see the herd
of horses, Canadians, native and
otherwise, Clydes, Percherons.
This is the life of Bowden not
as a city but a town.

**Many Farmers take
advantage of Fine
Weather**

Several weeks of fine warm
weather has passed and by all
appearances a large number of the
farmers are taking advantage of
it by getting their seed into the
ground and to get their plowing
finished. There was a slight show-
er of rain fell on Wednesday which
gave the grain already planted a
fine start, though we might say
there is no lack of moisture at
present.

Prospects are exceedingly bright
for a bountiful crop and the weather
has been all in its favor since the
season opened.

**Mrs. Mark Fortune and
daughters returned
home without Father
or Son.**

The following report is taken
from the Edmonton Capital of April
24th.

Mrs. Mark Fortune and her
daughters, Ethel, Alice and Mabel
survivors of the Titanic, S. C. Hutton
and his wife, who was formerly
Miss Clara Fortune and Charles H.
Allen, fiancee of Miss Ethel Fortune,
will leave New York this
morning on a special train for
Montreal whence they will proceed
to their home in Winnipeg.

"They declare that Mr. Fortune,
Charles, the son, Mrs. Fortune and
the three girls, were in adjoining
rooms reserved by them in the first
cabin of the Titanic when the ves-
sel struck. The women knew nothing
of the accident until they had
been informed by Mr. Fortune who
awakened them. When they reached
the deck they heard the cry:
'All women this way.' They joined
the line of women and saw the first
few lifeboats being filled.

"They were unwilling to leave
the vessel without father and brother,
but Charley reassured them by
taking possession of the valuables
which he is to carry, declaring
"I'll take some of these. We're
going on the next boat."

**Council
Meeting**

The Village Council held a spec-
ial meeting in the secretary's office
on Thursday the 18th April. Pres-
ident councillors Huff, Bernard and
McLean.

Mr. McLean took necessary oath
of office.

Motions of former meeting read
and confirmed.

The following accounts were
ordered paid:

Scale Inspection \$2.15

Returning Officers fee 5.00

On motion by councillors Bern-
ard and Huff it was desired that
the usual spring clean up be made
otherwise the ordinance be enforced.

On motion by councillors Ber-
nard and Huff it was agreed that
poultry be kept from running at
large in the village during months
of May, July, August and Septem-
ber.

On motion by councillors Mc-
Lean and Bernard it was agreed
that offer of Mr. G. W. West of
Innisfail be accepted for two more
lights recently used in connection
with rink in Innisfail at the price
to be \$30.00 each this price to in-
clude installing of said lights on
poles to be erected by the village
and further the lights to prove
satisfaction with one weeks trial of
same said purchase to include
1 tank and all costs of installing
on posts.

The meeting adjourned to meet
on Tuesday the 23rd at 8 p. m.

Shilo Siftings

A pleasant card party and dine-
was held at the home of Mr. H. A.
Langley last Friday evening. A
nice crowd was present and excep-
tional music was furnished by Mr.
Foote.

Ray Dial was in town this week
on business.

Mr. B. W. Dresser's sale was well
attended last Monday despite the
bad roads.

Mr. Tom Berry is going to leave
us. He is having his sale next
Saturday. His many friends met
at his residence last evening for a
farewell surprise dance. An enjoy-
able time was spent.

Mr. Jim Stevenson has put a
dandy new roof on his house.
Quite an improvement.

Mr. Arden T. Litt of Carstairs
who has been spending the Easter
vacation the guest of Mr. R. Dial
returned home Saturday.

Mrs. W. L. Cone left last week
for Carstairs to join her husband.

Mr. Robt. Davidson was in Innis-
fail last week.

Miss Lulu Dial is visiting at Mr.
Hengels on the Clearwater.

Mr. Charles MacCarthy has left
for Calgary, we understand that
Mr. W. H. Devore has rented his
farm for three years.

Mrs. J. H. Miller was visiting
friends at Caroline last week.

Mr. and Mr. Arthur Bowers
have another fine baby boy.

Mr. Charles L. Hall was in Innis-
fail over Sunday.

Messrs Earl and Oakey Benson
of Red Deer were the guest of
Mr. W. H. Devore last Monday.

Mr. Conrad Kaberle still makes
his weekly visits to Raven on foot.
Bad roads no object. "Where
there's a will there's a way."

Miss Stella Adams is visiting
her sister Mrs. Chas. Waring at
Red Deer where she is attending
school.

Mr. and Mrs. Oscar Coleman and
Messrs Olan and Ed. Clay were the
guests of Mr. C. L. Hall Sunday.

Mr. Larsen is home again.

**CHEAP
LUMBER**

There is Quality in lumber; don't forget that. Poor lumber
means a cold crude house; difficult to live in; difficult to rent and
difficult to sell. We carry cheap lumber suitable for some purposes
but the kind you want in your new home we make a specialty of. Inquire about our hardwood flooring. It costs you little
more than fir and it adds greatly to the value of the house. We
store our high grades in completely enclosed warehouses protecting
the lumber from dust, rain and sun. Our purchases are of such
magnitude that we demand the best lumber for the least money.
Our customers get the benefit.

ZAM-BUK IN THE HOME

Read How Useful It Proved in These Widely Different Cases

Zam-Buk's strongest point is its effectiveness in all kinds of skin diseases and injuries. Just note how excellent these persons proved it in widely different directions.

Sore Heel.—Mrs C. A. Campbell, of Powassan, Ont., writes: "One of my heels was very badly blistered by a pair of new shoes, and the poisonous dye from my stocking got into it, and made a bad sore. For a week I could not put on a shoe, and suffered great pain. I applied Zam-Buk, and in a few days it drew the poison out and healed the wound."

Bad Cut.—Mrs. J. Virgint, of Onondaga, Ont., writes: "Zam-Buk healed a bad cut which I sustained. I was hurrying across my yard one day when I slipped and fell heavily, my knee striking a sharp stone. At the moment I did not realize how badly I was hurt, but I found I had a bad cut about two inches long, very jagged and very deep. We bathed the cut and applied Zam-Buk. This stopped the smarting very quickly, and in a few days it had healed the wound completely. For cuts and bruises Zam-Buk is a splendid remedy."

Eczema Cured.—Mrs. Antoine Arsenault of Maxamilian, P.E.I., writes: "I can highly recommend Zam-Buk to any person suffering from eczema. I had this disease and was under doctors' treatment for two years, without any good result. I then tried Zam-Buk and in the end it cured me."

Zam-Buk is just as good for piles, blood-poison, festering sores, pimples, eruptions, cuts, burns, bruises, and all skin injuries and diseases. 50c. box all druggists and stores, or post free for price from Zam-Buk Co., Toronto. Try Zam-Buk Soap, 25c. tablet.

Mixed Morals.

Logan M. Bullitt, discussing grafting in Philadelphia, said the other day: "These people have a mixed moral sense. They remind me of a little Wissahickon girl."

"Oh, mamma," she said, "you'll have to discharge the new governess. She's awfully wicked!"

"She tells us," said the little girl, "Bible stories on week days."—Washington Star

The ingredients of Magic Baking Powder are plainly printed on each package. The makers of the numerous alum baking powders never do this, but they have been known to print the words "No Alum" on their labels. This is no guarantee—it is fraud. See that all ingredients are stated.

That Impudent Question. Just as Ryers was about to sit down to dinner there came a ring at his telephone.

"Well?" he said, placing the receiver to his ear.

"Who is this?" demanded a high-pitched, impatient voice.

"This," pleasantly answered Ryers, "is Don Hippolito Lopez Pomposo Antonia Ricardo Doloroso. Is that all you wish to know? Good-bye."

Hanging up the receiver, he sat down and ate his dinner, happily unaware that a highly indignant person at the other end of the wire was storming at central for giving him the wrong number.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, when it is entirely closed Deafness is the result, and until the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give Dr. Hall's Remedy for the cure of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

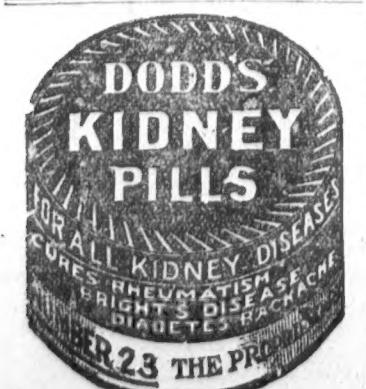

Sold by Druggists.

Take Hall's Family Pills for constipation.

In the middle of the 16th century a professor of theology in Strassburg insisted upon having individual communion cups, and during the plague in 1564 his demand was enforced.

Minards Liniment for sale everywhere

Soap exports from Great Britain continue to grow, reaching almost \$10,000,000 last year. Although Americans have been the best customers of English toilet soap, sales in the United States have been declining, hence what is probably the largest concern is about to establish a factory there.

W. N. U. No. 894.

A Plea Rejected.

"I made a mistake said Plodding Pete. 'I told that man up the road I needed a little help 'cause I was lookin' for me family, from whom I had been separated for years."

"Didn't that make him come across?"

"He couldn't see it. He said that he didn't know my family, but he wasn't goin' to help in bringing any such trouble on 'em."—Washington Star.

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merit through years of service. A trial will surely convince you.

The Real Thing.

A great painter was asked by his little son:—

"Father what is a connoisseur?"

"Well, my son," the father answered, "did you notice that tall, white-haired gentleman at my studio tea yesterday?"

The one with the sable-lined overcoat, father? Oh, yes, I noticed him." "Well, my son, he is a connoisseur."

"But how do you know he is a connoisseur, father?"

"By his actions, my son."

"But, father, he acted like every one else at the tea, didn't he?"

Certainly not, my boy! Certainly not: The others drank my Russian tea, ate my foie-gras sandwiches and took leave. But he—he bought a picture."

RESULTS HE GOT WERE PERFECT

SAM MALLETT'S BRIGHT'S DISEASE CURED BY DODD'S KIDNEY PILLS.

He Suffered Tortures and the Doctor Failed to Give Relief But Three Boxes Cured Him.

Rutter Station, Ont., (Special).— "I got perfect results from Dodd's Kidney Pills." So says Mr. Sam Mallette of this place. And he has a reason.

"My sickness started from a strain," Mr. Mallette continues, "and for a year I did not know a well day. My sleep was broken and unrefreshing, my appetite was fitful and my limbs would swell."

Then rheumatism set in and neuralgia, backache, headache and heart trouble added to my tortures. I was attended by a doctor but he did me no lasting good."

"Finally, when Bright's Disease had me in its grasp, I decided to try Dodd's Kidney Pills, and after taking three boxes, I was as well as ever I was in my life. I have had no pain since and advise all my friends who suffer from kidney disease to take Dodd's Kidney Pills and be cured."

Mr. Mallette's case shows what neglected kidney disease will result in and what splendid results Dodd's Kidney Pills give.

He Wouldn't Spoil Business

Dr. Harvey W. Wiley, at a dinner in Washington, discussed those experts who would urge the brewers of America to make beer out of cabbage leaves.

"The cabbage leave beer advocate," said Dr. Wiley, "cares nothing, it is evident, for the welfare of the human stomach. His attitude is exactly that of a man in black I saw the other day."

"As this man in black was walking along one of our streets, a beggar whined pitifully in his ear:—

"Would you give a poor feller a dime to save his life boss?"

"Certainly not!" the man in black replied. "Certainly, not! I'm an undertaker, sir."—Detroit Free Press.

Dr. J. D. Kellogg's Dysentery Cordial is compounded specially to combat dysentery, cholera morbus and all inflammatory disorders that change of food or water may set up in the stomach or intestines. These complaints are more common in summer than in winter, but they are not confined to the warm months, as undue laxness of the bowels may seize a man at any time. Such a sufferer will find speedy relief in this Cordial.

The Motorman's Sally. A Washington street car was getting under way when two women, rushing from opposite sides of the car to greet each other, met right in the middle of the car track and in front of the car. There the two stopped and began to talk. The car stopped, too, but the women did not appear to realize it was there. Certain of the passengers, whose heads were immediately thrust out of the windows to ascertain what the trouble was, began to make sarcastic remarks, but the two women heeded them not.

Finally the motorman showed that he had a saving sense of humor. Leaning over the dash board, he inquired in the gentlest of tones:—

"Pardon me, ladies, but shall I get you a couple of chairs?"—Lippincott's Magazine.

The Tramp.—My pal says as 'ow you've just give 'im sixpence fer avin' one leg.

The Old Lady.—Yes, I did.

The Tramp.—Well, then, gi' me a shillin' cos I've got two.—Sketch.

THE NEWS, BOWDEN, ALBERTA.

Rain Water.

Rain water is not always pure or nearly so, for under unusual conditions it brings down with it various small bodies present in the atmosphere. Thus there are "blood rain," due to the presence of vast numbers of the minute organism Haemococcus, and "sulphur rain," containing pollen grains of pines when these are set free about the end of May. During recent gales it was found that rain falling in the midlands consisted of strong brine, leaving a salt encrustation on windows and walls after evaporation. Apparently the sea spray had been carried by the high wind as far as seventy miles inland before coming down as rain.—University Correspondent.

PILE CURED IN 6 TO 14 DAYS
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching. Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

Sawdust may not appeal to the palate as a digestible or appetizing substitute for flour, in the making of bread, but all the same there is a large bakery in Berlin turning out twenty thousand loaves of sawdust bread daily. The sawdust is first subjected to a process of fermentation and various chemical manipulations. Finally it is mixed with one-third part of rye flour, formed into loaves, and baked in ovens like any other bread. Although this new "pain de bois," as the French call it, is meant for consumption by horses only, claim is made by the manufacturers that in case of famine it would furnish a nutritious and highly satisfactory food for human beings.

It will be news to most persons that the French navy has no chaplains afloat, although a moment's consideration would bring to remembrance the fact of the complete divorce between Church and State in France. The subject is brought prominently into notice by a petition signed by a great number of the mothers or widows of the sailors who were victims of the accident on the Gloire or the Liberte. The petitioners are to be found in the Midi, Brittany, Var and Finisterre, and they pray the Senate for the reappointment of chaplains on warships.—London Globe.

BABY'S LITTLE ILLS

Baby's little ills are many and need close attention. Worms are among the most common of these ailments—there being scarcely a child who is not afflicted by them at some time or other. These, though, can be readily banished by the frequent use of Baby's Own Tablets—the only remedy sold under the guarantee of a government analyst to contain no opiate or other harmful drug. Concerning them Mrs. Jos. Daigle, Ste. Perpetue, Que., writes:—"My baby was troubled with worms; he was nervous and had no appetite. I gave him Baby's Own Tablets and he was soon well again." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Old Folks

find advancing years bring an increasing tendency to constipation. The corrective they need is

"NA-DRU-CO" Laxatives

Entirely different from common laxatives. Pleasant to take, mild and painless. A tablet (or less) at bed-time regulates the bowels perfectly. Increasing doses never needed. Compounded, like all the 125 NA-DRU-CO preparations, by expert chemists. Money back if not satisfactory. 25c. a box. If your druggist has not yet stocked them, send 25c. and we will mail them.

NATIONAL DRUG & CHEMICAL COMPANY OF CANADA, LIMITED, MONTREAL. 22

A WONDERFUL REMEDY

Orange Lily is daily curing the most obstinate cases of Female Disorders. Falling of the Womb, Leucorrhœa, Painful and Suppressed Menstruation, etc., etc., are all of them relieved from the start by its use, and a few weeks' or months' treatment accomplishes a complete cure. This remedy is a positive, scientific preparation, and is based on the discoveries of Pasteur and Lister. It is an applied treatment, that is, it is not taken internally, but is applied direct to the suffering parts, and it, therefore, acts with all the certainty of the known laws of chemical action. As it comes in direct contact with the diseased tissue, it cannot help have a beneficial influence. It arrives from 10 to 50 letters daily, speaking of the benefits and cures it is performing, and as sure am I that it will do what is claimed for it that I will send, absolutely free, a sample to every suffering woman who will write for it. Price, \$1 per box, which is sufficient for one month's treatment. Address, MRS. FRANCES E. CURRAH, WINDSOR, ONT.

DISTEMPER

Pink Eye, Epizootic Shipping Fever & Catarhal Fever
sure and positive preventive, no matter how horses at any age are infected or "exposed." Liquid, given on the tongue; acts on the Blood and Glands, expels the poisonous germs from the body. Cures Distemper in Dogs and Sheep and Cholera. Powder, Large and Small. Liquid, a strong Distemper remedy. 50c and \$1 a bottle. \$6 and \$11 a dozen. Cut this out. Show it to your druggist, who will get it for you. Free Booklet, "Distemper, Causes and Cures."

Durbar Rupee to be Called in

Indian gossip has it that the new rupee, which was issued at the time of the Durbar, is to be withdrawn from circulation. The engraver attempted to reproduce the details of the heraldic collar—that of the order of the Indian Empire—which the King is wearing, and has succeeded in making the little elephants which hang from it look exactly like pigs. This, of course, is a horrible idea to native minds, and so the issue will probably be called in.

In one year 86,707,000 telegrams were dispatched in the United Kingdom.

When Your Eyes Need Care Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our Oculists—not a "Patent Medicine" not used in ophthalmic practice. Indicated for three years. Not advertised in the Public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Salve in Aseptic Tubes, 25c and 50c.

Murine Eye Remedy Co., Chioage

CANCER Old Sores, Lumps in Breast, Growths removed and healed by a simple Home Treatment! No pain. Describe the trouble, we will send book and testimonials free.

THE CANADA CANCER INSTITUTE, Limited

10 Churchill Ave., Toronto.

WRITE your name and address in the lines above, clip out this ad, and mail it now. We will send, by return mail, a book that tells how to make yours a "Twentieth Century" farm. You wouldn't be satisfied to use a scythe to cut your grain, when a modern harvester can do it so much better, would you? Nor to use the old soft-iron plough-share that your ancestors walked behind, when you can get an up-to-date riding plough? Every Canadian farmer realizes the advantages of Twentieth Century Implements. The next step is

The 20th Century Material—Concrete
Concrete is as far ahead of brick, stone, or wood as the harvester is ahead of the scythe or the riding plough is ahead of the old iron plough-share. Concrete is easily mixed, and easily placed. It resists heat and cold as no other material can; hence is best for ice-houses, root-cellars, barns, silos and homes. It never needs repair; therefore it makes the best walls, fence-posts, culverts, drain-tiles, survey monuments, bridges and culverts. It cannot burn; you can clean a concrete poultry-house by filling it with straw and setting the straw afire. The lice, ticks and all germs will be burned, but the house is uninjured.

It is cheap—sand and gravel can be taken from your own farm. Cement, the only material you must buy, forms from one-seventh to one-tenth of the whole volume.

Do you want to know more about Concrete on the Farm? Then write your name and address in the lines above, or on a postcard, mail it to us, and you will receive by return mail a copy of

What the Farmer Can Do With Concrete
Not a catalogue, but a 160-page book, profusely illustrated, explaining how you can use concrete on YOUR farm.

W. N. U. No. 894.

A Careful Diet.

Sir Richard Jebb, the eminent physician, was a man of irritable temper; and when bored by the querulous complaints of some of his patients could not always force himself to return a civil answer. A troublesome patient, whose illness was purely imaginary, pestered him one day with questions as to what he should eat.

"My directions on that point," said Sir Richard, "will be few and simple. You must not eat the shovel, poker or tongs, for they are hard of digestion; nor the bellows, for they are windy, but anything else you please!" —Tit-Bits.

NEW STRENGTH
IN THE SPRING

Nature Needs Aid in Making New Health-Giving Blood

In the spring the system needs a tonic. To be healthy you must have new blood just as the trees must have new sap to renew their vitality. Nature demands it, and without this new blood you will feel weak and languid. You may have twinges of rheumatism or the sharp, stabbing pains of neuralgia. Often there are disfiguring pimples or eruptions on the skin. In other cases there is merely a feeling of tiredness and a variable appetite. Any of these are signs that the blood is out of order—that the indoor life of winter has lessened your vitality. What you need in spring is a tonic medicine to put you right, and in all the world of medicine there is no tonic can equal Dr. Williams' Pink Pills. These pills actually make new, rich, red blood—your greatest need in spring. This new blood drives out the seeds of disease and makes easily tired men, women and children bright, active and strong. Mrs. Murray Marshall, Zephyr, Ont., says: "I do not believe I would ever have been well and strong again but for Dr. Williams' Pink Pills. I was so weak and nervous that I could not be left in the house alone. I would take weak spells with my heart and think I was going to die. I tried doctors and electric belts, but they did me no good. Then a friend urged me to try Dr. Williams' Pink Pills. To my surprise I soon noticed my appetite improving, and from that on I improved rapidly until I was enjoying the best of health, and I have not been troubled with weakness or nervousness since."

These pills are sold by all medicine dealers or can be had by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

His Half Share

"Willie, why don't you let your little brother have your sled part of the time?"

"I do, ma. I take it going down hill and he has it going back."—Boston Transcript.

MUSCULAR RHEUMATISM SUBDUES.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. There is no oil that so speedily shows its effect in subduing pain. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

Bad Outlook.

"No, I can't get up enough courage to ask old Patterson for his daughter."

"And why not?"

"Because I'm a builder of absolutely fireproof buildings and he is a fire insurance agent."—Cleveland Plain Dealer.

A Pill for All Seasons.—Winter and summer in any latitude, whether in torrid zone or Arctic temperature, Parmelee's Vegetable Pills can be depended upon to do their work. The dyspeptic will find them a friend always and should carry them with him everywhere. They are made to withstand any climate and are warranted to keep their freshness and strength. They do not grow stale, a quality not possessed in many pills now on the market.

"What's the matter, Jorrocks? You look as blue as indigo," said Whibley, sympathetically.

"I am blue," sighed Jorrocks. "I spent \$30,000 getting a divorce from my wife, and after I got it, blest if she didn't submit the question to the people, and by a majority of 337 I am still married to her!"—Harper's Weekly.

MOONEY'S
BISCUITS

BISCUITS MUST BE FRESH TO BE PALATABLE

MOONEY'S BISCUITS ARE THE FRESH BISCUITS

Fresh enough to take the place of the bread and biscuits you bake yourself. Because the MOONEY system is so perfect that every biscuit is shipped the same day it leaves the oven.

The big Winnipeg factory is so close that your grocer gets MOONEY'S in a few hours—no long haul—no deterioration.

Besides the demand for MOONEY'S—the popular biscuit—is so great that his stock is always changing.

MOONEY'S never grows stale on the grocers' shelves. That's one reason why

MOONEY'S PERFECTION
SODA BISCUITS

are fresher, crispier and more appetizing.

Ask for the big package or a sealed tin and judge for yourself.

Vanity

McGorry—I'll buy yez no new hat, d'yez moind that? Ye are vain enough alriddy.

Mrs. McGorry—Me vain? Ol'm not! Shure, Ol don't t'ink meself half as good lookin' as Ol am.—Christian Register.

Shiloh's Cure
quickly stops coughs, cures colds, heals the throat and lungs 25 cents.

He—Before I married you I never thought of saving.

She—And now?

He—Now, I'm always thinking what a lot I could have saved if I hadn't married you.—London Opinion.

MINARD'S LINIMENT relieves Neuralgia.

Cruel Papa.

Marion—"Did you say Harold doesn't know his own mind?"

Marion's Papa—"He doesn't unless some one introduced him to it lately."

A Pill For Brain Workers.—The man who works with his brains is more liable to derangement of the digestive system than the man who works with his hands, because the one calls upon his nervous energy while the other applies only his muscular strength. Brain fog begets irregularities of the stomach and liver and the best remedy that can be used is Parmalee's Vegetable Pills. They are specially compounded for such cases and all those who use them can certify to their superior power.

Where Justice Dawdles.

In Kansas the condemned ruffian had just been found guilty and given a jail sentence.

"But before you begin your term of imprisonment," said the kind judge, "you may go home and settle up your affairs."

"It will take some time," explained the condemned one.

"No doubt, no doubt," said the kind judge. "Do the best you can. Charlie, and when you are ready to visit the jail just drop me a postal or step in the next time you happen to be going by. Nice day, isn't it?"—Cleveland Plain Dealer.

Only One "BROMO QUININE"

That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used on the World over to Cure a Cold in One Day. 25c.

Within the last ten years the horses in the United States increased from about eighteen million to nearly twenty millions, and in price from about 900 million dollars to more than 2,000 million dollars.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, the best remedy of the kind that can be had.

His Accomplishment.

Settlement Worker—So this is your small brother. What does he do all day? Little Mother—Smoke a cigarette for the lady, bub, and swallow the stub!—Harper's Bazaar.

Minard's Liniment Cures Dandruff.

Patent medicines yield over £300,000 to the British exchequer per annum in duty.

Refreshing to an Expert.

A stylishly dressed woman in a smart-looking brougham narrowly avoided running over a Western Union messenger boy riding a bicycle in East Ninth street a few days ago. The woman stopped her car and opened the door of the electric to express her sympathy.

But the boy was ahead of her, and in a harangue that for emphasis would have made Capt. Kidd or any of the old buccaneers green with envy, told her exactly what he thought of the incident.

The woman closed the door hurriedly, and, turning to her 8-year-old son, who, dressed like Lord Fauntleroy, sat demurely beside her, said in a shocked voice:

"I never heard such language in my life."

"Oh, that's nothing," the little fellow told his mother, "You ought to have heard the cook talking to the neighbors about you the other day."—Kansas City Journal.

I consider MINARD'S LINIMENT the BEST Liniment in use.

I got my foot badly jammed lately. I bathed it well with MINARD'S LINIMENT, and it was as well as ever next day.

Yours very truly,
T. G. McMULLEN.

At a meeting of the French Agricultural Society, M. Vacher spoke of the good results obtained in Normandy by a milk controlling society. Following the example of similar bodies in Denmark and Sweden, a herd book is used to keep track of the cows and their descendants, so that only the best animals for milk producing are selected. This applies also to the males, whose qualities are transmitted. Such animals are much preferred by buyers and bring a higher price.

The barometer was discovered in 1643.

AGENTS WANTED.

Write for agency for our special to-order tailoring for your town. There is money in it. John Dawson, Ltd., Church St., Toronto.

"Ever been locked up?" demanded counsel.

"I have been," admitted the witness.

"Aha! And what had you been doing to get yourself locked up?"

"I had been doing jury duty."

The penny-postage scheme was first adopted in England in 1839.

TWENTY YEARS.

Makes a great difference in most women. They are troubled with "nerves"—they suffer from backache, headache, sleeplessness, a sensation of irritability or twitching, hot flashes, dizzy spells, or many other symptoms of female weakness. The local disorder and inflammation should be treated with Dr. Pierce's Lotion Tablets and the irregularity and weakness of the female system corrected and strengthened with Dr. Pierce's Favorite Prescription. The strain upon the young woman or the woman of middle age—upon the nerve and blood forming structures—may be too great for her strength. This is the time to take this restorative tonic and strength-giving nervine and regulator. For over forty years sold by druggists also to the males, whose qualities are transmitted. Such animals are much preferred by buyers and bring a higher price.

Following letter selected at random from a large number of similar ones and cited merely to illustrate these remarks:

"In the winter of 1908, I became greatly run down and irregular; I slowly but surely grew worse, and, at last, resolved to apply to the doctor for help. The doctor said I had inflammation, enlargement and laceration. I was in bed eleven weeks and got no better. The doctor said I must have an operation, but to that I would not listen. My husband had taken Dr. Pierce's Favorite Prescription. When I started to take this remedy I could not walk across the room, but after I had taken three bottles I could feel myself gaining, so I dropped the doctor and took Dr. Pierce's Favorite Prescription. Only for it I think I would have been dead—I really believe it saved my life. I feel better now than in twenty years."

A Line-up of Bowden's Last Year Baseball Team

Reading from left to right are:—Dr. Shore, umpire John Arnold, utility man, E. J. Buchanan, catcher Charlie Ridgeway, second base, Jim Prowse, L. F. Sam Hunt, R. F., H. McKim, C. F., M. C. Iver, S. S. Jim Cornish, pitcher, Kirk McBroom pitcher, Chas. Rollans, first base. When the team lines up this year new players will have to be found to complete this line-up which has been broken, by the removal from Bowden of Cornish, McBroom, McKim and Culver.

LINOLEUMS

Our Spring Stock of Linoleums and Oilcloths have arrived and no housewife while buying her new spring house furnishings can afford to pass up our store. Our stock comprises over 15 different patterns and is the best in Innisfail.

We were fortunate in securing a reduction in buying the above lines and can now sell cheaper than the other fellows.

Time to Get Busy

Mostly every evening a large number of the boys can be seen practising ball and amongst them there seems to be some first class players. Now if the town is to keep up its interest in sports of the baseball class why not hold a meeting and get into regular running order, then they would have a chance to do something in the way of going into a league if any is formed.

Calgary and the Grain Routes

Calgary, Alta.—H. W. Patterson of the Winnipeg grain exchange, when interviewed regarding Calgary's future as a grain centre, expressed the utmost confidence in the strategic advantages of this section of the province. Mr. Patterson looks for tremendous development to take place as a result of the shipment of grain through Pacific ports after the opening of the Panama canal; and he argues for the encouragement of the grain trade along the lines that will ensure its exportation through Canadian ports. Other well known authorities confirm this opinion, some even going so far as to predict that the coming autumn will see record grain shipments from Alberta going out by way of Vancouver. It is undoubtedly a fact that the experiences of the past year have turned the attention of shippers as never before to the Western outlet for middle Western products.

The names of the following gentlemen have either left or are leaving our village. Sam Hunt, H. McKim, M. Culver, J. Cornish and Curt McBroom.

The Churches

METHODIST

Rev. F. E. Davies will conduct Methodist Church service this Sunday Nitbet 2.30, Bowden 7.30. Evening subject; "Some Things Money Cannot Buy." The church orchestra will lead the singing. Solo by Mrs. Davies. Bright, and hearty service. All are welcome.

Next Wednesday being the first Wednesday in the month the Methodist Ladies Aid will meet at the home of Mrs. Howard at 2-20.

ST MATTHEW'S CHURCH

Service every Sunday afternoon at 2.30 p.m. Communion the first Sunday in every month. Rev. McLean Parting, incumbent.

WORKING AT RED DEER

Henry Chandler is busy in Seattle gathering baseball players for his Red Deer team, and is meeting with great success. The men already signed up are; Hurly, catcher Bliss and Bert Dunn, the pitcher and outfielder. Hurly will sign two men now in California. The remainder of the team will be gathered from around Seattle.

Man Unknown Loses Life

In a collapse of the false work over the Red Deer river in the Alberta Central railway bridge west of here, late this afternoon, one man lost his life and another was seriously injured. Both men were rushed to the hospital here, but one died on the road and nothing is known of him as he had only joined the crew today and had never given his name.

The injured man, Austin Aunn has several wounds, and his back is injured, but it is hoped he will recover.—Morning Albertan.

Printed Letterheads for Farmers

Printed letterheads and envelopes are travelling advertisers. When a letter comes, it makes a big difference if it has a printed letter head and envelope. It looks like business, and it is business of the best kind.

The farmer needs such printed letterheads. There should be some thing for sale on every farm, and the letterhead can be made to advertise it very cheaply. It will also be found that the printed letterhead will have quite an influence on the person himself. The more he sees it the more pride will be taken in keeping up the quality of the articles for sale.

It is not accident that business men in all lines use the printed letterhead. They have found that it is a good business proposition. Those farmers who have tried it have found it both profitable and a source of pride. The cost will not be so much more than for plain paper. It may seem a little large, but then one wants to remember that he is getting a great many sheets and envelopes at one time.

Letterheads and envelopes printed to your taste can be had at the Bowden News Office. Come and look them over. Prices right.

TRADE AGREEMENT WITH WEST INDIES IS NOW PROBABLE

It is Anticipated That no Objections will be Made to the Speedy Ratification of the Agreement by Both the Dominion and Colonial Legislatures.

Ottawa.—On the conclusion of the trade conference between the representatives of the Dominion and the various West Indies governments, Hon. George E. Foster, minister of trade and commerce, gave out an official statement as follows:

"An agreement signed in duplicate was issued by the representatives of the West Indian colonies and the government of Canada. It was the result of 5 days' sittings in conference and a deal of steady work done outside of conference by subcommittees.

"The agreement is made for a term of years, and revocable at the end of the period named therein on one year's notice. It includes exchanges of products on a wide and generous scale, and is based on a preference to the products of each country in the markets of the other.

"The agreement goes to the governments of the colonies included for consideration, and comes into effect when approved by both the Dominion and colonial legislatures and his majesty's secretary of state for the colonies. It will be possible for all these to consider and decide, and for the agreement to go into effect before the beginning of the year 1913. Judging by the instructions given to the various delegates by their respective governments, and the evident good

will and harmonious co-operation shown by them in the sessions of the conference, it is anticipated that no objection will be made to the speedy ratification of the agreement.

"The agreement is between Canada and the interested colonies alone, and leaves both sides with complete liberty to adjust the tariffs as respects all other countries. Grenada, the Bahamas, Bermuda, Jamaica, and British Honduras are the only British West Indian colonies that are not included, and for these the latch string is left on the outside of the door, and the lamp kept burning in the window, with a warm welcome fire certain for them when they come.

"The questions of improved cable and steamship communications between Canada and the West Indies were carefully considered, and the views of the conference were embodied in resolutions unanimously passed. The objective of these resolutions is to effect an up-to-date and adequate cable and steamship connection, based upon the co-operation of the West Indian colonies, the Dominion of Canada, and the government of Great Britain. Inasmuch as the agreement is to be submitted to the various governments concerned for their consideration and approval, it is not advisable to give the details thereof at present to the public."

SHIP GRAIN VIA PACIFIC COAST

Winnipeg Man Believes That Is The Solution of Western Canada Congestion.

Calgary.—With the establishment of grain storage facilities at the Pacific coast, Calgary will become one of the world's greatest grain centres, according to H. S. Patterson, of the Winnipeg Grain Exchange, who recently paid a visit to the Pacific coast cities on the Canadian side of the line to stimulate the movement for government owned terminals there. Mr. Patterson's mission was undertaken with a view to encouraging the shipment of western grain via the Pacific in anticipation of the enormous development of Pacific markets and the opening of the Panama Canal.

"What we should do is develop our grain trade along lines that will insure its exportation through Canadian ports that we may derive all the benefit possible from it," he said. "The American interests are doing all they can to gain control of the exportation of grain from Canada. Hill is building several branch lines northward into Canada from his American road, and there is no doubt it is the Canadian grain he is after."

"We should prepare now for this year's harvest. The government should build terminal elevators at the Pacific coast and encourage the shipment of grain by that route for that is going to be most beneficial to Western Canada."

CANADA AND NAVY

London Sunday Observer Has Interesting Comment to Make.

London.—The Sunday Observer says editorially: "Indications are that Canada is ready to take her proper place as the eldest daughter in the empire.

"While duly noting Mr. Borden's disclaimer of the naval programme article recently published by the Quebec Chronicle, we contend that the principles it foreshadows are so admirable, its effect at this juncture is so salutary and its scheme is so full of the right spirit of imperialism that Premier Borden will do less than justice to himself and his patriotic ministry if he does not make it his own in its main principles.

"Whether time is yet ripe for an imperial admiralty board remains to be seen. The forthcoming conferences between the admiralty and Mr. Hazen will be critical and there will be need to speak plain truth as among friends."

Failed to Scale Mount McKinley

Fairbanks, Alaska.—The Fairbanks Mount McKinley expedition, which left here February 5, have returned, having been unsuccessful in the attempt to scale the mountain. The party succeeded in attaining an elevation of 11,000 feet on the north side of the mountain east of Peter Glacier. Further progress was barred by precipitate ice cliffs, and lack of supplies and the lateness of the season made it impracticable to renew the attempt by another route.

Arctic Explorer Will Go North

Montreal.—Christian Leden, the Arctic explorer, who is known in Montreal from the lectures on his expedition to Greenland, is preparing to command an expedition next year to the far north of Canada. It is the intention of Mr. Leden to explore the coast between the mouth of the MacKenzie River and the Hudson's Bay and especially to study the unknown Eskimos of that northernmost part of this continent and their culture and material conditions of life.

PRACTICE ANYWHERE

New System of Registration Proposes to Defeat Present Inadequate Ideas.

Vancouver, B.C.—With a view to securing a large attendance at the annual convention of the Canadian Medical Association to be held at Edmonton August 10-14, Dr. H. G. McKidd, of Calgary, president and Dr. Whitlaw, of Edmonton, secretary, respectively, are visiting the chief cities of British Columbia.

It is expected that the great medical gathering in Edmonton will be noteworthy in medical annals on account of the inauguration of a new system of registration for the entire Dominion, a subject that has been agitated by the profession for many years.

The necessary legislation to bring about the proposed change has been passed by the Dominion Parliament and all the provincial legislatures of the Dominion with the exception of Ontario enabling legislation.

It is expected it will be passed by the Ontario assembly at its present session.

Comparatively Few Deportations.

Ottawa, Ont.—The number of immigrants so objectionable that their deportation has been ordered, has not been very large when the total immigration is taken into account, but it is large enough to have created the opinion in some quarters that stricter and more rigid tests should be applied at the port of entry.

The number of rejections at the ports of arrival since 1902 has been 7,528. For the year ending March last it was 2,210, the largest on record. The number of immigrants detained for further inspection was also the largest on record, being 8,457, against 7,022 for the previous fiscal year. Over 35,000 have been detained since 1902. This number represents a percentage of rejections for Canadian immigration ports of 1.6 per cent. of the total.

The report of Commissioner Williams at Ellis Island shows that in the year ending June 20, 1911, deportations numbered 14,000, or 2 per cent. of the total.

Of the 740,000 aliens inspected 144,000 were held for further inspection and inquiry. Thus the Ellis Island records show 89 per cent. of immigrants to have been especially examined, while the Canadian special detention has been only 4.6 of the total. Of course, the standard of immigration to Canada and the United States is radically different, about 70 per cent. of the American immigration coming from South and South-Eastern Europe, where standards of life and morals are exceedingly low.

Believes in Western Canada.

Regina, Sask.—"Americans are just beginning to wake up to the wonderful opportunities for profitable investment in Canada," said A. W. Browne of Chicago, while stopping over in Regina on his return trip to Chicago, from a tour of Western Canada. "A man has fifty chances here to one in other parts of the continent. This year will see a greater number of Americans come to Canada than ever before. It is not always the old men that come from the United States to Canada; it is generally the young men. Their fathers buy them farms, or start them in business out here, and they do well. If I possessed all of Rockefeller's dollars, I would invest every cent in Western Canada." Mr. Browne is business manager of the British American and the Canadian American publications, and tells of many Americans who are making money in the West.

'Quake Death to Thousands.

Mobile, Ala.—Thousands of persons have been killed and whole Indian villages swept away by the eruption of Chiriqui Peak, near Bocas Del Toro, in Honduras, according to the story of Captain Olsvik, of the United Fruit Company's steamer Fort Morgan which arrived here recently.

UNIONIST LEADER SPEAKS

Bonar Law Says Any Attempt to Pass Home Rule Bill is Not Government But Tyranny.

London.—Speaking at Belfast before a vast and wildly enthusiastic audience, Bonar Law, leader of the Unionist party, said that any attempt to pass the home rule bill in its present state of unpopularity was not government but tyranny, naked and unashamed, and tyranny not less real because usurpers had obtained power by fraud. He entertained no hope that the government majority in the house of commons would become less, because the more clearly the people of the United Kingdom show opposition to the government the more desperately will the coalition postpone the evil day when the people whom they have betrayed will pronounce judgment upon them.

"Gentlemen," he continued, "I say to you, you are a besieged city once again. Your Lundys have betrayed you, but you have closed your gates. The government has erected a boom to cut you off from the help of the British people, yet you will burst that down.

Walter Long, M.P., who followed, referred to the attacks which had been made on Sir Edward Carson and Lord Londonderry, and said "We are here to say that if they are to be attacked they shall not be attacked alone. If they are going to put Sir Edward Carson and Lord Londonderry into the dock, then they will have to find one large enough for the whole Unionist party." (Prolonged cheers).

500,000 ACRES WATER-COVERED

Loss in Mississippi Flood Area Will Run into Millions.

Memphis, Tenn.—Between 1,700 and 2,000 square miles, including more than 500,000 acres of rich farming land in Northern Arkansas and the St. Francis Basin, are affected by a break in the main line of the levee system about fifty miles north of Memphis, near Golden Lake, Arkansas.

Marked Tree and Wilson, Ark., are inundated, and many other villages are threatened. No loss of life has occurred so far as known here.

The damage will run into millions. Thousands of head of livestock have perished.

Boats bearing rescue parties already are in the parts of the flood nearest Memphis. Relief parties also have been organized and despatched from Osceola, Ark., and other towns.

News from the other sections of the Northern River district is cheering. Supplies of tents, bedding and clothing arrived in the Reelfoot Lake territory of Tennessee.

At Wilsontown and Marked Tree there are large sawmills. The loss to these possibly will reach a million dollars.

The territory is much more extensive, and the devastation, loss of property, as well as exposure and hunger, will be on a larger scale than has been recorded in the recent ravage of the river.

Comparatively Few Deportations.

Ottawa, Ont.—The number of immigrants so objectionable that their deportation has been ordered, has not been very large when the total immigration is taken into account, but it is large enough to have created the opinion in some quarters that stricter and more rigid tests should be applied at the port of entry.

A Dominion medical board will accept all certificates issued by the various provincial medical boards to existing practitioners, and will then take over the examination of medical men seeking to practice, and its certificates will entitle the holders to practice anywhere throughout the Dominion.

RESIDENCE FOR PRINCE

Difficult Problem to Provide Home For Future Ruler.

London.—Court circles are discussing the purchase of a town residence for the Prince of Wales. It is a difficult problem to solve. Queen Mother Alexandra occupies Marlborough House, and he cannot have that while she lives. St. James Palace might suit a bachelor prince, but the Prince of Wales must marry early in order to secure the succession to the throne. It is possible that the Duke of Sutherland's magnificent mansion may be purchased for the Prince. The duke dislikes London and is dismantling the house and is dispersing his work of art among his country houses.

Believes in Western Canada.

Regina, Sask.—"Americans are just beginning to wake up to the wonderful opportunities for profitable investment in Canada," said A. W. Browne of Chicago, while stopping over in Regina on his return trip to Chicago, from a tour of Western Canada. "A man has fifty chances here to one in other parts of the continent. This year will see a greater number of Americans come to Canada than ever before. It is not always the old men that come from the United States to Canada; it is generally the young men. Their fathers buy them farms, or start them in business out here, and they do well. If I possessed all of Rockefeller's dollars, I would invest every cent in Western Canada." Mr. Browne is business manager of the British American and the Canadian American publications, and tells of many Americans who are making money in the West.

YUAN MAKES A THREAT

Continued Disagreement Among Fac- tions of Chinese Government Disgusta President.

Pekin.—No date has yet been settled on for the assembly of the coalition cabinet in Pekin, and grave forebodings are in circulation in regard to the continued disagreement among the different factions of the government. There appears to be no fear that hostilities will break out again, but the leaders of the various sections display inability to establish a capable government.

President Yuan Shih Kai has uttered the threat that he will establish his own cabinet and summon another national assembly if the delegates from the south do not arrive in Pekin by April 21, but the president will probably not go to such an extreme immediately.

The members of the government disagree on various points, but both Chinese circles and foreign diplomats are of the opinion that the real disengaging factor is the distrust of the southerners, who fear to trust themselves to come to Pekin where the troops, although they observe order, still dominate the situation, and business has been resumed only by the smaller storekeepers.

The southerners proposed to bring a bodyguard of several thousand troops to Pekin, but President Yuan Shih Kai objected that the presence of the southern troops in the capital would be a source of danger.

Lou Tseng Tsang, the Chinese minister at St. Petersburg, has telegraphed from that city declining the post of president of the foreign board.

ENTERS FREIGHT RATE WAR

Council Voted \$5,000 And Named Lawyer to Manage Campaign

Winnipeg.—Isaac Pitblado, K.C., has been retained by the city to take charge of the city's fight for more equal freight rates in and out of Winnipeg and will attend the forthcoming meetings of the Dominion Railway Commission on freight rates which will resume its sessions at Ottawa toward the end of the present month.

At a meeting of the Council an interim appropriation of \$1,000 was voted to defray the first expenses of the city's campaign. The entry of the city into the fight is the result of representations made at a special meeting of the board of control a few days ago by a committee from the board of trade, which in the past has been practically the only public body dealing with the matter.

In future the city council and the board of trade are to co-operate.

HEAVY IMMIGRATION

Astonishing Number of Newcomers For Dominion Come By Way of Portland, Maine.

Ottawa.—To judge from the extremely heavy immigration traffic for Canada which continues to arrive via the United States port of Portland, Maine, it would appear as if that port had been temporarily annexed by Canada for her own use.

Steamer after steamer for months past have unloaded record numbers of immigrants, of whom all but a fraction had been destined to Canada.

All previous records for passengers landed by any individual steamer were broken on Thursday last, when the steamship Zealand, from Rotterdam, specially chartered by the White Star Dominion Line, in conjunction with the Red Star Line, landed no less than 1,559 passengers, and astonishing as the proportion may seem no less than 1,557 of these were bound for Canada.

More Census Reports

Ottawa, Ont.—The census branch of the department of trade and commerce will in the course of a short time issue a series of interesting bulletins containing further information in regard to the census taken in June last.

One of the most important of these bulletins will deal with Canadian manufacturers which will show an astonishing increase as compared with 1901.

Another will give all available statistics in regard to agriculture.

The religious persuasion of the people will be fully dealt with in a third bulletin while the fourth will contain a further analysis of the population figures which, in many cases will be given by townships, together with information as to the number of married and unmarried people and the proportion of children.

These bulletins, or most of them, have been in the hands of the King's printer, and the proof sheets are now being revised. Later on, only bulletins will be issued and it will probably be two years before all statistics gathered at the census will be duly worked out and tabulated by the census staff.

Strike Costs Miners \$70,000,000

London.—The loss in wages due to the coal strike has been \$70,000,000, half miners and half other trades. Railways lost \$14,000,000. Funds of the federation have been almost exhausted, \$7,500,000 being the amount paid out in strike pay and in many districts the organizations are bankrupt.

The men are beginning to say that the result was not worth the cost and it is predicted that it will be many a long day before there will be another national strike.

THE SUNDAY SCHOOL

LESSON III.—SECOND QUARTER, FOR APRIL 21, 1912.

Text of the Lesson, Mark iii, 7-19. Memory Verses, 14, 15—Golden Text, John xv, 16, R. V.—Commentary Prepared by Rev. D. M. Stearns. The first part of this lesson is found in Matt. xii, 15-21, as well as in Mark, and the record of the choosing of the twelve is found in Matt. x and Luke vi and in our lesson verse. Our meditation is upon the record as found in the several gospels. When Jesus knew that they had determined to kill Him He withdrew with His disciples to the sea. When people resist the gospel and will not hear of our Lord Jesus our instructions are to let them alone and withdraw from them (Matt. x, 14; Acts xiii, 46; John x, 11). As then multitudes followed Jesus because they needed what He had to give, so there are multitudes now hungering for them to come to Pekin where the troops, although they observe order, still dominate the situation, and business has been resumed only by the smaller storekeepers.

The members of the government disagree on various points, but both Chinese circles and foreign diplomats are of the opinion that the real disengaging factor is the distrust of the southerners, who fear to trust themselves to come to Pekin where the troops, although they observe order, still dominate the situation, and business has been resumed only by the smaller storekeepers.

Local Jottings

Mr. H. A. Ewen was an Edmonton visitor last week.

Miss Susie Kedward visited Olds on Monday.

Messrs Buchanan, Kelly and Lowe visited at Innisfail over the week end.

All kinds of first class job work neatly despatched from this office at prices that will please you.

Mr. and Mrs. Sewell of Calgary spent Sunday at the home of Mr. and Mrs. W. W. Rutledge.

Mr. W. G. Moore, V. S. of Didsbury was in our thriving village on Friday the 19th.

Mrs. R. L. Lowe is the guest of Mr. and Mrs. J. G. Adam of Red Lodge this week.

Mr. F. H. Schorley, former owner of the Bowden News was in Bowden on Tuesday on business.

A well attended meeting of the Modern Woodmen of America was held in McCue's hall on Tuesday evening.

We want good live correspondents from all the country districts beyond Bowden. Who will be first?

Mr. C. T. Jackson and Ira Redford visited our village on Tuesday.

Mrs. P. McDermott and family visited friends in Innisfail last Sunday.

Mr. and Mrs. Wm. Hinde and daughter Miss Genevieve, of Early Lake are the guests of Mr. and Mrs. W. W. Rutledge.

I owe an apology to the many readers of this paper on account of its being published late. This is due of course to the Bowden News changing hands this week. We will however, endeavor to have the same out on time next week.

We regret to announce the death of Jane, the infant daughter of Mr. and Mrs. James Black, which sad event took place last Thursday. Rev. F. E. Davies conducted the funeral service at the residence and also at the cemetery.

Dairymen's Meeting

(Continued from Page One)

5000 lbs. of milk per annum get rid of her, she is of no available use. In this way you can, by close watching of your milk weights from each cow, and good feeding, tell whether or not your herd is paying you. There is good money in dairying if properly carried out.

Another good way of making money is to buy either cattle or horses when they are young and can be obtained cheap. Raise them then sell. This is good a way to make money as the real estate business.

After delivering several good reasons of profit in the dairying, as well as the rearing of same he closed, leaving three things with the people which he wished to impress on their minds, that being Firstly, feed, Secondly, weed, and Thirdly breed.

Next to be called to the platform was Mr. T. B. Millar, who was introduced to the audience by Mr. Harcourt, who stated that Mr. Millar was there in the interests of the Laurentia Milk Co. Ltd.

Mr. Millar then opened his address, saying that this company had purchased the creamery at Bowden and same is to be used for the preparation of milk and cream for city use.

A brief history of his work in the east was given, followed by an explanation of the present creamery in Bowden. He gave reasons why Alfalfa hay was equally better than any other class, pointing out that one ton of Alfalfa is equal to the same amount of bran, he also explained ways of taking all impurities from the milk, and for an example he had with him a bottle filled with milk, which he had carried with him for several months and it is said that the same is still in its normal condition.

At the close of the meeting a vote of thanks to the speakers of the evening was heartily applauded to by all present, likewise the same was extended to the chairman who filled the chair for the evening exceptionally good.

Refreshments were served to the audience, after the evening's proceedings, in the lower apartment of the hall.

Fletcher-Hunter

A quiet wedding was solemnized in St. John's Anglican Church at Olds on Tuesday when Miss Wilhelmine Hunter, sister of Mrs. Jas. Black of Bowden was united in marriage to Mr. Richard Fletcher of this town. Rev. McLean Banting performed the holy rites which made the happy couple man and wife. The bride was becomingly gowned in a white cashmere dress and carried a bouquet of orange blossoms. After the ceremony the happy couple left for Bowden where they will reside on the groom's farm.
